

Application No. 10/705,839 (HUANG) Amendment A, cont.

REMARKS/ARGUMENTS

1. In the specification, the paragraphs (10 on page 3) and (2 on page 5) have been amended to correct minor editorial problems. No new matter is introduced.

2. The claims 1, 2 and 4 have been currently amended the minor editorial problems especially in the claim 1, the confusing in line 10-11 and the position of the magnets are all clarified and further defined in the claim 2 of record in order to overcome the rejection to the claims under 35 U.S.C. 112.

3. This Office Action has been traveled around the world for about more than **4 months** due to that the USPTO mail room miss-mailed it to a wrong address (**P.P. CH-8058, Zurich 58, 501 MTS Switzerland**). Thank god the addressee voluntarily transferred it to me and reached me on **November 9, 2004**, or otherwise, I can't file this Amendment. Upon this unexpected mistaking, I have to file a petition together with this Amendment to request for time extension for **two months** and pay additional USD215 (as shown in an enclosed check). So I deeply expect a self-examination and the improvement within the USPTO mail room in order to prevent further mistakings which seriously affect the legal right of the applicant.

4. The Examiner has acknowledged that claims 1-4 would be allowable if rewritten or amended. So applicant respectfully requests that a timely Notice of Allowance be issued in this case.
